TESTS & MEASUREMENTS

A Nationally Normed and Validated Self-Concept Measure for Elementary School Children. The Self Observation Scales (SOS) is a factor analytically developed, direct, self report, group-administered instrument which measures the way children perceive themselves and their relationships to peers, teachers, and school. The Primary Level (K-3) includes five scales: 1) Self Acceptance, 2) Social Maturity, 3) School Affiliation, 4) Self-Security, 5) Achievement Motivation. The Intermediate Level includes the five scales above plus Social Confidence, Peer Affiliation, and Teacher Affiliation. Costs including all materials, scoring, class-by-class reporting, and summary reporting are as low as 51 cents per student. A Spanish version is available at both levels. Specimen sets can be obtained for $3.50 (including shipping) from: National Testing Service, 2526 Erwin Rd., Durham, N.C. 27705.

'CSE Secondary School Test Evaluations' provides a listing and critical evaluation of all published assessment, diagnostic, and prognostic instruments for grades 7-12. Each of the three volumes contains a compendium of tests, keyed to objectives of secondary education, and evaluated for such characteristics as meaningfulness, examinee appropriateness, administrative usability, and normed technical excellence. Designed for use by principals and superintendents who do not have expertise in measurement; also of interest to psychometricians and educational evaluators. Three-volume set available for $22 from: Center for the Study of Evaluation, UCLA Graduate School of Education, Los Angeles, Calif. 90024.
